PROJECTS

Taeen Platform   https://taeen.iq

  Built and launched Taeen.iq, a professional job posting website designed to showcase services and improve online visibility. Developed responsive layouts, intuitive navigation, and content presentation to enhance user experience and engagement.

Nexogroup Store https://www.nexogroup.store/

Built and deployed Nexo Group (nexogroup.store), a responsive e-commerce website for electronics and tech products. Implemented product listings, categories, filtering, shopping cart, and checkout functionality with a focus on performance, usability, and modern UI/UX design.

E-Store E-Commers https://www.estore.iq

Built and maintained EStore (estore.iq), an online e-commerce platform for consumer electronics, mobile phones, accessories, and tech products. Developed responsive product browsing, shopping cart, and checkout features with a focus on quality, performance, and customer usability

Devhouse portfolio website https://dev-house.com/

Developed and launched Dev House (dev-house.com) — a professional software development company website showcasing services, portfolio, and company information. Designed and implemented responsive layouts and clear navigation to improve user engagement and brand presence online.
